Overview: ESE Kongress 2018

The **Embedded Software Engineering Kongress** is the leading convention in Germany that focuses exclusively on the development of device and system software for industrial applications, automobile electronics, telecom devices and systems as well as consumer and medical devices.

Program

- **Day 1 and 5:** Basics – compact trainings
- **Day 2 – 4:** Congress programm with software engineering, research and management tracks
- Developers party and dinner event

The congress program will be published in August 2018.

Target Group

- Embedded software developers
- Test engineers
- Software architects
- Project leaders
- Technical management
- Management

Your Benefit

- Information on modern software engineering techniques for electronics development
- Interdisciplinary know-how: concerted expertise in informatics and electronics
- Compact and practice-oriented presentation of all issues
- Select speakers from the industry, research and teaching
- More than 20 years of training and congress experience by MicroConsult and ELEKTRONIKPRAXIS
- Exchange of experience and networking with experts from the industry and research
- Congress days can be booked individually
- Congress volume with all presentations in text form
- Proven format: 112 presentations and seminars, 54 renowned exhibitors and around 1,200 satisfied participants in 2017

Participant Statements

"Every year, ESE Kongress is an excellent knowledge platform for the software industry where an outstanding audience meets numerous top-class speakers."

PETER SCHMIDT,
INTENCE AUTOMOTIVE ELECTRONICS

"For many years, ESE Kongress has been a highly relevant platform for the embedded software engineering community that grows consistently. The event offers a wide range of fascinating topics from research and the industry."

DR. KLAUS BIRKEN, ITEMIS

Call for Papers

If you like to participate in the ESE Kongress with your own presentation, please submit your proposal.

Who can become a speaker at the ESE Kongress?

Experts from development, test, management, research and teaching with presentation experience.

Possible Topics

You will find an extensive list of topics in the Call for Papers section on www.esk-kongress.de/english.

Deadlines and Information

Deadline Call for Papers: 18 May 2018.
www.esk-kongress.de/english

Main presenters participate in the congress at no cost. Presenters of the best rated sessions or seminars will be honored with the Best Speaker Award.

Become an Exhibitor

- Present yourself as exhibitor in the modern, friendly atmosphere of the congress center
- Enhance your image and book one of the sponsorship packages
- Fair prices – a profitable investment
